📍 Pune

SKILLS

Programming Languages C#,Javascript, Typescript

Technologies DotNet,Angular 2+

Database SQL Server,IBM Db2, Google Firebase

EDUCATION

SSC 92%
NavMaharashtraVidyalaya
2014

HSC 73%
FergussonCollege
2015-2016

BECComputerScience 8.32 CGPA
DrDYPatilInstituteOf
ManagementAndResearch
2016 - 2020

EXPERIENCE

2020- Present

- Developed many project modules using Angular and DotNet Framework
- Learned libraries and reusable packages
- Developed rest APIs

PROJECTS

• CollegeBuddy | Android Studio, Google Firebase

Developed an Android App for students as well as teachers. Student will get all the necessary information like his attendance, result, notices, time table, events at one place. Teachers can mark attendance, circulate notices-events , update time tables, provide result at their finger tip.

• Technical Skills Assessment Using Machine Learning| Android Studio, Firebase ML kit

Sment is an android application which helps the user to grow their skills at their own pace. The application is designed in such a way that the student or the professional will give the test and based on the performance, the system will assess their skill level and provide them with a personalized learning path.

• Secure File Server | MySql Workbench, JavaScript

Developed a web app to store and access files in encrypted format. It uses AWS server for database management and google firebase for user authentication.

EXPERIENCE SUMMARY

- Good experience in developing web applications using web API,Angular and SQL server.
- Good knowledge about validations and coding standards.
- Can learn and adapt quickly to the new technologies.
- Good knowledge about agile methodologies and project workflow.

LINKEDIN COURSES

Learning c#
API Testing foundations
Learning ASP.NET
Agile Software Development
